## Screenshot – Simple

Do you want to share high-res screenshots of your amazing game in just a few clicks?  
You are looking at the right asset.

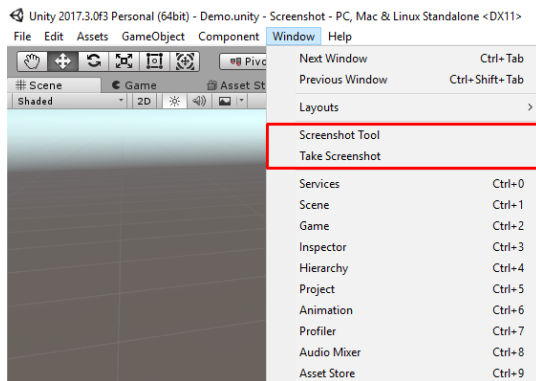

### Features:

- Easy to use
- Resolution multiplier
- Choose the location via File Explorer
- Editor Window

### Use:

- You can either use “Window->Take Screenshot” if you don’t want additional settings

- Or you can select the “Window->Screenshot Tool” to select your path and adjust the multiplier
